KY 750 closing at Raceland for utility relocation project

Detour by using KY 3105

FLEMINGSBURG, Ky. – Motorists should expect traffic impacts on Pond Run Road (KY 750) and Greenup Avenue (KY 3105) in Raceland next week as work begins on a utility relocation project.

The work, which will be done by Northeast Kentucky Excavating Inc. under a contract with the City of Raceland, is being funded by the Kentucky Transportation Cabinet as part of an overall road improvement project.

Beginning Monday, Sept. 26, motorists should expect intermittent daytime closures of Pond Run Road between Chinn Street and Greenup Avenue as the contractor and other companies begin moving utility lines located underneath and overhead the state highway.

On Wednesday, Sept. 28, weather permitting, electric line changes will require the temporary closure of Greenup Avenue and of one lane of Pond Run Road from 4:30 a.m. to 1 p.m. At times, the intersection also will be closed to traffic.

By Thursday, Sept. 29, Pond Run Road will be fully closed and will remain closed up to 90 days for the utility relocation work.

During construction, all through traffic on Pond Run Road, including trucks and cars needing access to the railroad tunnels on KY 244, should reroute using KY 3105. Detour signs will be posted. Motorists should also watch for flaggers when work affects adjacent streets or intersections.
